College Scholarships Awarded by Kinedyne

Tuition support to Alabama, Minnesota students

BRANCBURG, NJ (August 13, 2009) – Kinedyne Corporation has concluded its first annual *Kinedyne Cares* College Scholarship Program with \$2,500 awards to two students – one from Alabama and one from Minnesota. The scholarships were presented through a competition conducted in conjunction with the Alabama State Trucking Association and the Minnesota State Trucking Association.

The recipients for the first year of the program were selected based on 500-word essays addressing the topic “How the trucking industry has positively impacted my life.” The competition was open to all members of the respective trucking associations, as well as to members of their immediate families. Payments will be made directly to the winning students’ bursar accounts for tuition costs.

“Given the current economy, every little bit can help when it comes to funding a college education,” says David Callahan, corporate marketing manager for New Jersey-based Kinedyne, a manufacturer of cargo control products for the transportation industry. “We created our scholarship program to provide assistance to deserving individuals and families within our own industry. The initial outcome was outstanding, and all of us here at Kinedyne are really looking forward to developing this program in the future.”

The winners of the inaugural *Kinedyne Cares* College Scholarship Program were Prattville, AL resident Cass Sheridan, who’ll be attending Troy University, and Albany, MN resident Shaley Smalley, who will attend St. Cloud State University.

About Kinedyne Corporation

Founded in 1968, Kinedyne Corporation is the world leader in manufacturing and distributing cargo control products for the transportation industry. The company leads the market in several segments through its development and engineering of a high-quality product offering, which includes more than 5,000 standard and custom items and several patented products. Its products service users within a wide variety of capacities, including: heavy duty trucking, interior van and flatbed trailer OEMs and fleet operators, independent owner operators, commercial trailers, farm & agricultural, moving & storage, and recreational vehicles.

Headquartered in Branchburg, NJ, Kinedyne operates facilities in Lawrence, KS, Prattville, AL, and Reno, NV. In addition, it is the parent company for a worldwide operations group – Kinedyne Canada Ltd. (Canada) and Nantong Kinedyne Ltd. (China), and an affiliation with Sistemas Kinedyne, S.A. (Mexico).

More information on Kinedyne is available at www.kinedyne.com and on the company’s YouTube channel, www.youtube.com/kinedynecorporation.
